Hi Stiven and Kathleen

I'm attaching the draft spreadsheet that I promised you showing more information on the rationales for archiving (or not) pesticides on IRIS. Our contractor is working up some website mockups that I'll share with you when they are ready.

The spreadsheet has the names of the IRIS pesticides in the first column. The color of the pesticide name is used to show its status.

I would like to get your reactions to the spreadsheet prior to sending this out to the larger group. It would be great if you could review the information on the spreadsheet and let me know if anything is not clear or consistent with the approach to archiving that we had discussed. If you are okay with doing this, could you let me know how much time you'll need?

Thanks

Norm
